## Let's explore endless opportunities in Halal Industry

### About Halal Research Council

Halal Research Council is an organization working globally on Halal certifications in order to cater the needs of food and nutrition agencies and side by side non - food agencies especially in the FMCG sectors.

Halal Research Council certifies the products under the reverent coordination of recognized Shariah Supervisory Board, Highly qualified Food Technologists, Chemical Engineers and R&D Professionals in respect of eligibility for Certification through research based methodology scrutinizing the sources of ingredients, examining the entire supply chain, chemical examination and analyzing Shariah prospects of ingredients used in the products.

### About Halal Industry

The Global Halal market growth is surprising everyone. The Muslim population is growing at the exponential rate of 3% per annum. Current total Muslims population is estimated at 1.97 billion, expected to reach 4.2 billion by 2030. International well known institutes are now predicted a double digit growth over next decade or so of the existing USD 5 trillion Halal Sector. Apart from the 1.5 billion Muslim populations, the Halal Food is becoming popular among non-Muslims as well. This has created tremendous opportunities for Muslim countries, including Pakistan, to export Halal items be it Food, Beverages, Fashion, Pharmaceutical or follow Islamic Halal principles in Recreation and Finance. Lack of Quality professionals is one of the main hindrances in the growth of the Sector in Pakistan. Halal Research Council is organizing a one day specialized training workshop on Halal Food Management.

### About Halal Food Management

Halal food means food fit for human consumption and permitted by the Laws of Islam and that which fulfills the Islamic Laws conditions. As the Muslim population is increasing drastically across the globe, the Halal food products are quickly gaining worldwide recognition and acceptance as a new benchmark for quality and safety assurance. Food products that are Halal certified are readily acceptable by Muslims consumer due to the concept that it is Shariah requirement, wholesome and cover safety aspects of hygiene and sanitation. These attribute appeal to non-Muslims as well, many people not aware of what halal is or the process involved in producing it. There is a need to have Halal food management campaign to educate the public of what is the aim of Halal food processing, preparation and label on food so that people can chose the best food without any doubt. This is as much for Muslims as for non-Muslims.

Halal food management system encompassing the laws the enforcement team and the support of analytical facilities should be well coordinated to gain continues confidence from Muslims worldwide.
